Project Status report

Name: Julian Gonzales

Community (UN SD goal): SDG 10: Reduced Inequalities, SDG 11: Sustainable cities and communities

MVP # 1

Sprint cycle dates: Nov 1 - Nov 28

Project Name	Club Sleuth
Blurb	ClubSleuth is a web app that is aiming to help people find the right community for them in the form of local clubs. With this web app I am aiming to hit SDG 10: reduced inequalities, and SDG 11: sustainable cities and communities. ClubSleuth is all about bridging local clubs and people together by letting them search in this web app their specific interests in clubs. You would be able to put in where you live and registered clubs in that place would then show up.
For Week Ending	November 28, 2023
Project Status	Green
Status Description	The status is green because all MVP 1 features are done. All that is left is a few minor adjustments and refinings.

Activities—During the past sprint cycle

- Front-end mobile view
- Validation of add/edit clubs
- Refinement on club page layout
- Addition of website link
- Refinement on manage club layout

Project Issues

- No real issues

Project Changes

- No project changes were discussed/reported

Activities—Planned for Next Week

- Flesh out any bugs if seen
- Refinement on more pages
- Add images/videos

Reflection

Do you feel "on track"?
- Yes I feel on track

What progress do you particularly feel good (great) about?

- I put a lot of time on making the mobile view work so I am particularly proud of that this sprint

What barriers (if any) do you feel is/are a current impediment to success?
- None at the moment

What help (if any) do you require to move positively forward?
- More feedback from club owners is always helpful

What questions or concerns do you have (if any)?
- None
